RAY PERRY

Summary

Hard-working, adaptable, generalist with over nine years of experience in full-stack web development. Self-starter; works well in a team environment and approaches problems with a "can-do" attitude. Prioritizes effectively and works under deadlines with ease. Has lead multiple teams in high-pressure situations. Understands what needs to be done and acts accordingly, learning additional roles when required. Offers a fresh perspective to situations and is not afraid to ask questions.

Technical Skills

PROFICIENCIES: JavaScript, Lisp, Scheme
PLATFORMS: Node.js
FRAMEWORKS: Angular, Vue.js
DATASTORES: MongoDB, MySQL, Redis

Work Experience (Full-time)

ThoughtWorks | Senior Consultant | December 2019 – present
Worked with a large fast-service restaurant chain to augment and integrate payment terminals with previous-generation transaction gateway and vendor APIs.

Oranj | Full Stack Engineer | December 2017 – December 2019
Worked on a suite of advisor, investor, and analytics applications, focused on account aggregation and rebalancing. Built a meta-object browser to facilitate the association of entities across multiple systems.

PMMI Media Group | Sr. Web Developer | August 2017 – November 2017
Worked on a data aggregation tool that consumed data from IBM Silverpop, Salesforce, and a Redis cache.

QuikOrder, Inc. | JavaScript Engineer | February 2016 – July 2016
Maintained and augmented multi-purpose food order system. Integrated multiple third-party APIs. Added smart localization that adhered to WCAG, I18n, and a11y standards. Created various middleware for our Node.js-based system.

RDI/A Digital | Web Developer | March 2014 – March 2015
Deployed multiple to-spec sites for Publicis Health Media, PAC12, The NFL Network, Delta Faucets.
